

Build your own packages with Hotel Package Rates

Package rates are prepaid discounted property rates available when combined with a transport component. They offer an average discount of 20% off published rates and may offer a higher commission to you.

Search for Hotel Package Rates

On your Expedia TAAP homepage, select 'Properties' and enter your search parameters. After reading and accepting the Package Rate Program Terms and Conditions, tick the box to confirm and 'Search for Package Rates'

Note:

- You must have booked a flight, car, cruise, or train for the same traveller, but this transport booking does not have to come from Expedia TAAP. Weekly random audits are conducted.
- Hotel Package Rates should remain opaque and not be disclosed at any time. You can easily 'hide' the price using the Itinerary Builder before forwarding the travel voucher to the traveller.
- Client credit cards are not to be used at checkout for package rates.
