Let's talk about commission!

With Expedia TAAP, we'll help you maximise your profit while staying competitive by getting commission based on total gross booking value inclusive of taxes and fees.

Hit annual gross booking value targets on properties, pre-paid rental cars, activities and airport transfers to increase your commission rates. Once you reach a new tier (**Silver AUD 40,000, Gold AUD 170,000, or Platinum AUD 550,000 annual GBV**), you'll earn at your new, higher rate until the end of the following calendar year, starting the very next month.

Payments are sent monthly once the minimum payment amount of AUD 35 is reached and includes commission for bookings completed during the previous month. For example, a property stay that is booked in December and takes place in February will be included in your March commission payment.

Build your own packages with Hotel Package Rates

Package rates are prepaid discounted property rates available when combined with a transport component. They offer an average discount of 20% off published rates and may offer a higher commission to you.

Book a property and pay later with Deferred Payment

Deferred payment is a feature that allows you to book pre-paid property rates without the need for immediate payment, giving you the flexibility to pay 7 days before the free cancellation date.*
